DEVHOST 2026

IDEAS THAT ECHO THROUGH TIME

EVENT RULEBOOK

MYTHICAL CANVAS

A CONTENT CREATION CAMPAING

Event Description:

Bring **DevHost to life through the world of Greek and Norse Mythology**. Capture the events, competitions, people, moments, and atmosphere of **DevHost** and turn them into creative content in your own unique style.

Event Outline:

- **Date:** 12th November - 13th November
- **Theme:** Greek & Norse Mythology
- **Duration:** 2 Days
- **Participation:** Offline
- **Team Size:** 1-2 Members

Event Structure:

The competition will run throughout **the two-day DevHost event**. Participants can create **multiple pieces of content** around **DevHost** and its various competitions, activities, participants, and moments. Content must creatively incorporate the **Greek and/or Norse Mythology** theme.

Participants must post their content on **Instagram during the competition** and tag the official **SOSC Instagram account**. At the end of the event, all content created during the competition must be submitted through the official **Google Drive link** provided by the organizers

Content Guidelines:

- Participants may create **multiple pieces of content** in any creative format, including reels, short/long-form videos, skits, interviews, cinematic edits, documentaries, memes, or behind-the-scenes content.
- Content must be related to **DevHost** and incorporate the **Greek and/or Norse Mythology** theme.
- Participants are free to choose their own concept, storytelling style, and editing approach.
- The Instagram account used must be **public.**
- Followers, likes, views, comments, and shares will **not** affect the judging.

Judging Criteria:

100 Points:

- **Creativity & Originality** - 30
- **Relevance to Greek & Norse Mythology** - 20
- **Connection to DevHost** - 20
- **Storytelling & Concept** - 15
- **Technical Execution** - 10
- **Overall Impact** - 5

Basic Rules:

- Participation is open to individuals or teams of **1-2 members.**
- All content must be created during the **two-day competition period**.
- Content must be original and must not be copied from other creators.
- Participants may use mobile phones, cameras, editing software, and other creative tools.
- Participants must not disrupt any **DevHost** competition or activity while creating content.
- Participants must respect the privacy and consent of people being recorded.
- Copyrighted material must be used responsibly.
- Offensive, hateful, discriminatory, or inappropriate content will result in disqualification.
- The judges and organizers decision will be **final and binding.**

Registration Details:

Registration: Online / Spot Registration
Participation: Offline
Team Size: 1-2 Members
Fee: ₹100 per team

WINGED KEYS

BACKSPACE COSTS YOU THE ROUND

Event Description:

Winged Keys is a speed typing challenge that puts participants' speed and precision to the test. With one official attempt on Monkeytype.com, every keystroke counts towards achieving the highest score.

Event Outline:

- **Date:** 12th & 13th November 2026
- **Time:** 9:00 AM onwards
- **Venue:** Event Booth

Event Structure:

- Participants can walk in and register anytime during the event hours.
- Participants will take a 1-minute official typing test on Monkeytype.com (English mode).
- The typing text will be unseen before the official attempt.
- Their results will be recorded and submitted for validation and ranking.
- Each participant is allowed one official attempt.

Time Limit:

- **1 minute per attempt.**

Scoring Formula:

Final Score = WPM × (Accuracy / 100)

Example: 80 WPM × 92% Accuracy = 73.6 points

Leaderboard:

A live leaderboard will track scores throughout the event. Participants with the highest verified scores at the end of the event will be declared the winners.
In case of a tie, the participants will compete in a short tie-breaker typing test.

Guidelines for Participants:

- External typing aids, macros, scripts, autocorrect or other forms of assistance are not allowed.
- Participants will use the computers provided at the event booth.
- Participants are advised to familiarize themselves with Monkeytype before their official attempt.
- In case of a verified technical issue, a re-attempt may be permitted at the discretion of the organizers.

Basic Rules:

- Participants must maintain respectful conduct toward judges, organizers, and peers.
- Any attempt to manipulate or misrepresent a typing result will lead to disqualification.
- Participants must adhere to the instructions provided by organizers.
- Disruptive or dishonest behaviour will not be tolerated.
- The decision of the organizers is final in all matters related to scoring and fairness.

Registration Details:

- **Mode:** Spot Registration.
- **Team Size:** 1 participant.
- **Registration Fee:** ₹50 per participant.

ARENA OF ARES

A BATTLE-GROUND TOURNAMENT

Event Description:

The Arena awaits. Four squads will drop into the same battlefield, but only one will rise as the ultimate champion. Every decision counts, where you land, how you loot, when you fight, and when you hide. Precision aim, split-second strategy, and unbreakable squad coordination will separate the champions from the rest. This isn't just about survival, it's about dominance. Push your limits, outsmart every enemy squad, rack up eliminations, and claim your place at the top of the leader board. Welcome to Arena Of Ares, where legends are forged one kill at a time

Event Outline:

- **Date:** 13th November 2025
- **Time:** 9:00 AM onwards
- **Venue:** 4th floor, CAD LAB

Event Structure:

The tournament will begin with Registration, where squads confirm their participation and submit their IGN and UID details. Teams will compete across three maps – Erangel, Miramar, and Rondo – with points awarded based on both placement and eliminations. The team with the highest overall score after all rounds will be crowned the Arena Of Ares Champions.

• All matches will be played offline at the event venue in a custom room without recalls.

Scoring System (Placement Points per Round)

Placement	Points
1	10
2	6
3	5
4	4
5	3
6	2
7-8	1
9-16	0

• Kill Points: Each kill earns the team 1 additional point.

Guidelines for Participants:

- All matches will be played offline at the event venue.
- Each team is responsible for bringing at least one laptop to connect to LAN.
- Any form of threats, toxic behaviour, or unsportsmanlike conduct will result in disqualification. • Use of any third-party software or applications that provide unfair advantages is strictly banned.

Basic Rules:

- Any player or team found cheating, exploiting bugs, or using third-party tools will be immediately disqualified.
- Toxic or abusive behavior towards players or organizers will not be tolerated.
- Players must strictly adhere to match timings and instructions from organizers.
- The decision of the organizers will be final and binding in case of disputes

Registration Details:

- **Mode:** Online.
- **Team Size:** 4 Participants.

- **Registration Fee:**
  Early Bird Ticket - 450 per team
  Normal Ticket - 500 per team

SIEGE OF TROY
CAPTURE THE FLAG CHALLENGE

Event Description:

A high-tech challenge where teams solve cyber-security puzzles and race against the clock for prizes.

Event Outline:

- **Date:** 12th November 2026
- **Time:** 10:00am to 12:30pm
- **Venue:** Ground floor Central Lab & Ground floor AIML Lab

Event Structure:

- The competition is structured as a fast-paced sprint featuring multiple progressive tiers (Easy -> Medium -> Hard challenges).
- Participants will be provided with a set of cybersecurity-themed challenges. Each challenge hides a flag that must be submitted on the event portal to score points.
- Challenges are designed to scale in complexity, naturally filtering participants based on speed and technical skill.
- Participants are free to use any online resources, tools, or scripts to solve the challenges. Creativity and persistence are key.

Scoring System:

Points: Every challenge shows its point value upfront on the portal.

- Easy Challenge - 100 points
- Medium Challenge - 250 points
- Hard Challenge - 500 points

Tie-Breaker: If two teams tie on points, the team that reached that score first wins.

Judging Criteria:

- Each challenge carries specific points based on its difficulty level.
- The scoreboard will reflect participants' progress in real time.
- Teams with the highest total points at the end of the competition will be declared winners.
- Tie-Breaker: The team that reached the score first will be ranked higher.

Guidelines for Participants:

- The use of the internet is permitted and will be provided.
- Participants are not permitted to try to exploit or hack the portal on which they are competing.
- Participants must not attempt to access or interfere with the college network or any related systems.
- Instance Scope: Interact only with the specific target IP/port or downloadable file provided for that individual challenge.

Basic Rules:

- Any kind of misconduct or unfair activity (such as cross-team flag sharing or brute-forcing the platform) will lead to immediate disqualification.
- Participants must follow all instructions given by the organizers during the event.
- In case of any disputes, the decision of the organizer will be final and binding

Registration Details:

- **Mode:** [Online / Offline]
- **Team Size:** 1 or 2 Participants.

- **Registration Fee:**
  Early Bird Ticket - 150 per team
  Normal Ticket - 200 per team

THE SPHINX TRIAL

COMPETITIVE PROGRAMMING CHALLENGE

Event Description:

An algorithmic contest for people who think in complexity classes. The problems get harder as you go, and the leaderboard moves until the last minute.

Event Outline:

- **Date:** 12th November 2026
- **Time:** 3:00 pm to 5:00 pm
- **Duration:** 2 Hours
- **Venue:** Ground floor, CSE Central Lab

Event Structure:

- **Two-Round Event**: The competition will be conducted in two rounds a Preliminary Round and a Final Round.
- **Preliminary Round:** The Preliminary Round will be conducted on POMELO.
- **Final Round:** The Final Round will be conducted on CodeChef.
- The competition will feature a combination of logic-deduction-based challenges and conventional competitive programming problems.
- **Logic Deduction Problems:** Participants must analyze the given examples and deduce the underlying logic before implementing their solutions.
- **Conventional Problems:** Participants must analyze the given problem statement and develop an appropriate algorithm and implementation.
- **Evaluation:** Hidden test cases will be used to evaluate the correctness and generalization of submitted solutions.

Judging Criteria:

- **Accuracy:** Solutions must produce the correct output for all visible and hidden test cases.
- **Problem Solving:** Ability to derive the required logic and develop an effective solution.
- **Efficiency:** Solutions must satisfy the specified time and memory constraints
- **Scoring:** Problems will carry different weightage based on difficulty.
- **Tie-Breaker:** In case of a tie in total score, the participant with the lower total solving time will rank higher.

Guidelines for Participants:

1. This is an individual competition (1 participant per registration).
2. You may code in C, C++, Java, or Python.
3. There is no negative marking.
4. Each problem carries different weightage based on difficulty.
5. Multiple submissions are allowed before the contest ends. A problem will be awarded its assigned points when the submitted solution is accepted.
6. No plagiarism, AI assistance, or external discussion is allowed during the contest.
7. Logic-deduction problems require participants to deduce the underlying logic from the given examples.
8. The competition includes both logic-deduction and conventional competitive programming problems, testing progressive problem-solving and algorithmic reasoning.
9. All submissions must be made through the designated platform for the respective round.
10. In case of a tie in total score, the participant with the lower cumulative time for their accepted solutions will rank higher.

Basic Rules:

- Reach the venue before the contest timings.
- The competition will be conducted offline at the designated venue.
- No using the internet to search for answers, solutions, tutorials, or other external assistance.
- Discussion or communication with other participants during the contest is not allowed.
- Use of AI tools or external assistance is not permitted.
- Any form of plagiarism or copying of code will result in disqualification.

Registration Details:

- **Registration Mode: Online**
- **Registration Platform: Unstop**
- **Team Size:** 1 or 2 Participants.

- **Registration Fee:**
  Early Bird Ticket - 150 per Team
  Normal Ticket - 200 per Team

VOICE OF THE ORACLE
TECH PITCH COMPETITION

Event Description:

Pitch your cutting-edge startup ideas to capture industry attention and compete among tomorrow's tech leaders.

Event Outline:

- **Date: 12th November 2026**
- **Time: 10:00 am to 12:00 pm**
- **Duration: 2 Hours**
- **Venue: Ground floor seminar hall**

Event Structure:

- The competition will begin with **online registration through Unstop**. Registered teams will submit their required details and pitch deck through the designated submission process.
- Based on the submitted pitch decks, the **Top 30 teams will be shortlisted** for the final pitching round at **Sahyadri College of Engineering & Management on 12 November 2026.**
- Shortlisted teams will then present their startup ideas before the judges within the given time frame.

Competition Rounds

Round 1 – Online Registration & Shortlisting

- Register through Unstop.
- Submit the required team details and pitch deck.
- All submissions will be evaluated based on the judging criteria.
- Top 30 teams will be shortlisted for the final round.

Round 2 – Final Pitch Presentation

- Shortlisted finalists will pitch live in front of our expert panel of judges.
- **Time Limit: 4 minutes to pitch + 3 minutes for Q&A.**
- Keep it concise! Teams must stick strictly to their allotted time.

WHAT TO INCLUDE IN YOUR PITCH DECK

1. Every participating team needs to craft a compelling pitch deck (slide presentation).
2. A prototype or demo is optional but encouraged.
3. Prototypes can be built using tools such as:
   - Figma
   - Canva
   - Web/mobile application frameworks
   - Other suitable prototyping platforms
4. The pitch must clearly explain:
   - Problem Statement
   - Your Solution / Innovation
   - Target Market & Ideal Customers
   - Business Model
   - Revenue Model
   - Technology Stack Used
   - Competitor Analysis
   - Unique Value Proposition / Differentiation
   - Future Roadmap & Growth Plan

Judging Criteria:

Our judging panel will score presentations across five main categories:

Placement	Points
Business Viability & Feasibility	25
Innovation & Novelty	20
Market Relevance	20
Technology Integration	20
Presentation Quality	15
Total	**100**

1. BUSINESS VIABILITY & FEASIBILITY – 25 POINTS

Here's what we're looking for:

- A well-defined, sensible business model
- Realistic market potential and growth opportunities
- Strong understanding of your target audience
- Clear strategies for generating revenue
- Real-world practicality of the solution

Show us that your idea isn't just great on paper—it has what it takes to become a sustainable business!

2. INNOVATION & NOVELTY – 20 POINTS

Here's what we're looking for:

- Fresh, creative approaches in concept or design
- Clear differentiation from existing market solutions
- Out-of-the-box creativity
- Innovative problem-solving techniques

Demonstrate how your product brings a genuinely novel approach to solving the problem.

3. MARKET RELEVANCE – 20 POINTS

Here's what we're looking for:

- Strong alignment with current market needs and trends
- High relevance of the identified problem
- Deep understanding of customer pain points and needs
- Demonstrated demand for such a product
- How effectively you tackle a real, pressing issue

4. TECHNOLOGY INTEGRATION – 20 POINTS

Here's what we're looking for:

- Effective and smart use of tech tools/frameworks
- Relevance of chosen technology to the problem
- Quality of technical execution
- How seamlessly technology enhances the user experience and solution

5. PRESENTATION QUALITY – 15 POINTS

Here's what we're looking for:

- Clear messaging and structure
- Confident delivery
- Strong communication skills
- Audience engagement
- Overall polished quality of the pitch
- Ability to hook the audience and convey your vision within the time limit

Guidelines for Participants:

- All teams must register via Unstop to officially enter the competition.
- Make sure to upload your completed pitch deck and team details during registration.
- Only registered teams with submitted materials will move on to shortlisting.
- The Top 30 teams will advance to the final pitching round.
- Shortlisted finalists will receive prompt notifications and next steps for the final presentation.
- Shortlisted teams must pay a finalist fee of ₹150 to participate in the final round.
- Prepare a neat, engaging pitch deck.
- A prototype or interactive demo is optional but strongly encouraged (use Figma, Canva, web/mobile app frameworks, etc.).
- Your pitch should clearly detail your problem statement, solution, target market, business/revenue model, tech stack, competitors, unique differentiators, and roadmap.
- Be ready to answer tough and exciting questions from our judges right after your pitch!
- Please respect everyone's time and stick strictly to the presentation clock.

Basic Rules:

- All event registrations must go through Unstop.
- Each team may submit only one entry.
- All work and ideas submitted must be the original work of team members.
- Strictly follow the presentation time limit: 4 minutes for the pitch + 3 minutes for Q&A.
- Shortlisting depends on the quality of submitted pitch decks and evaluation criteria.
- The Top 30 teams will move on to pitch live in the finals.
- Treat judges, organizers, and fellow competitors with professionalism and respect at all times.
- Plagiarism, dishonesty, or misrepresentation will result in immediate disqualification.
- Organizers reserve the right to update schedules or guidelines if necessary.
- The decision of the judging panel is final and binding.

Registration Details:

- **Mode:** Online
- **Platform:** Unstop
- **Team Size:** 2–4 Participants

- **Registration Fee:**
  As specified on the Unstop registration page.
  Finalist Fee: 150 per shortlisted team
